You can take any video, trim the best part, merge with other videos, add soundtrack. This allows you to use the video as a background when changing images, add it as background music during a video conference, attach it to a wall, or attach it in a slider, or use it as a desktop screensaver on a computer. Microsoft is starting to use the ISO file format as the basis for a new format, AVI. AVI can be used to create various video clips. This format is used as the main basis for digital data transmission. Microsoft has introduced a number of new and enhanced options for the Windows Dynamics CE app for Windows Phone. In particular, five new options are available in Exchange 2010. Watch and relax :) A novelty introduced by Microsoft this year. At the very end of March, support for the Russian language appeared when working with Windows 8/8.1. Microsoft plans to increase the amount of built-in memory in mobile devices by as much as 60%. Due to this, the interface of the operating system will also change. As early as this month, the Russian company RUSAL plans to start supplying a number of new aluminum alloys to the market. All these products will be produced at a new plant in the Altai Territory. The new work of Paul Allen boasts a good continuation. This time the director created a film about the console. In the center of the plot is Steve Jobs himself and his brainchild Apple - the first gadget in the world. Recently, the official version of Windows 8 was released. And despite the fact that this operating system is far from new, it has already managed to establish itself well among users. A few days ago, Bill Gates finally gave an interview in which, as many expected, he clarified the corporation's plans for the desktop interface. The Internet is buzzing about the fact that the corporation has made every effort to remove everything superfluous from the Windows interface. The Windows Live Unplugged community, created by Tim LaFleur for the Windows Phones developer community, has once again delighted users with a new team of well-known music industry professionals. The version of Android Wear for Samsung smartphones from Samsung has already become popular among users, but the company offers a particularly interesting option for owners of tablets on this platform. Often, having bought a new smartphone, we are in a hurry to update the version of the operating system to the latest, which is only expected. Here we can not do without the next update of windows 7. While Microsoft's press release states that
